

We are pleased to announce the MaineHealth Learning Community (MHLC) has partnered with QuantiaMD, an online medical education portal, to create a **private community** for our members. This community will provide you with opportunities to participate in MHLC-sponsored interactive educational outreach sessions from the comfort of your home or practice. Many of these sessions are CME-approved.

Our private community will also link to other educational segments including Grand Rounds presentations, case challenges, research updates, and discussions with other clinicians in your field of practice or study. Educational segments can also be viewed on your mobile phone or device through QuantiaMD's unique mobile application. In these ways, we hope to expand the availability of educational sessions to members that may be unable to travel or host in-services in their practice.

QuantiaMD and the MaineHealth Learning Community Staff have worked closely together to ensure a fast and easy registration process. If you are already a QuantiaMD member, you will be automatically added to the private MaineHealth community. If you are new to QuantiaMD, please follow the simple instruction below to access all of the tools and resources noted above.

- ① Click [HERE](#) to register.
- ② Complete the “Join QuantiaMD” section on the right-hand side of the website.

The MaineHealth Learning Community's contract with QuantiaMD guarantees that your e-mail and private information will remain confidential, and registered members will only receive messages from the communities that they have joined. There are opt-out features in place as well if you wish to discontinue these messages.

If you have any questions regarding registering or logging in, please contact QuantiaMD's Customer Support at 1-800-773-4162 or support@quantiamd.com.

Sincerely,

Jacquelyn Cawley, DO
