

MaineHealth
Center for
Quality & Safety

To learn more about the CQS and some of the projects that it is working on please visit: http://www.mainehealth.org/mh_body.cfm?id=5557

Preventable Readmissions and Admissions: A strategic plan has been developed for system wide Care Transitions. This work is ongoing and will transition to the next level in Sept. 2010.

Data, data, data: The CQS is working in collaboration with other organizations across the system through the IS Data Strategy Committee to determine how technology can best meet the identified system needs.

Education for Physician Practices: This event was a huge success! The MH CQS in partnership with the Community Physicians of Maine, MMP, MMC, Mercy Hospital and NovaHealth hosted a Quality Improvement Workshop: A Team Based Approach to Healthcare, on April 28th, 2010. To learn more about this symposium and any future symposiums please visit:

http://www.mmcphe.org/qi_resources/qi_symposium_for_physicians/

Boards on Boards Symposium: CQS hosted its 5th annual Boards on Boards Symposium on June 10th, 2010. For more information about this symposium please [click here](#).

Save the Date Upcoming Conferences

- a. Two TeamSTEPPS Master Trainer Courses will be offered this fall. Dates for the two (two- day) sessions are Sept. 27th& 28th and Oct. 26th& 27th. For more information about TeamSTEPPS please click here. <http://teamstepps.ahrq.gov/>

Other Education opportunities:

MH CQS is in the planning phase of developing quality coaching workshops for microsystems coaches.

MH CQS is currently developing a system wide quality improvement curriculum. The curriculum will consist of 9 learning modules. Check back for details about the materials, and how and when the curriculum will be available and distributed.
