

LIVE WEBCAST

IMPLICATIONS OF PERIODONTAL DISEASE FOR PEOPLE WITH DIABETES

Thursday, April 19, 2007 ♦ 8:00-9:00 AM

PRE-REGISTRATION REQUIRED

Purpose: Provide essential information to health care providers on the importance of proper oral and dental care in the prevention of complications for people with diabetes.

Objectives:

- 1) Discuss the relationship between diabetes and periodontal disease and describe how periodontal disease affects systemic biochemistry/physiology
- 2) Understand the importance of oral health and interdisciplinary prevention/intervention
- 3) Develop performance improvement measures to construct effective interventions for people with diabetes that have periodontal disease
- 4) Become familiar with the Wisconsin Essential Diabetes Mellitus Care Guidelines for oral care

Guest Speakers

Anthony Iacopino, DMD, PhD
Associate Dean for Research and Graduate Studies; Professor, General Dental Studies, *Marquette University School of Dentistry*

Moderator – Melissa Meredith, MD
Endocrinologist, *University of Wisconsin Hospital and Clinics*

Who Should Attend: Wisconsin physicians, nurses, and other health care professionals interested in understanding the relationship between periodontal disease and diabetes.

Sponsored by:

MetaStar, Marquette University School of Dentistry, and the Wisconsin Diabetes Prevention and Control Program

Pre-registration is a must! Please complete this form and fax by **April 18th** to Mary Kay at (608) 274-5008.
